

## Elton Tse

*Angelus Yuen Manager, Fire Assay  
ALS Minerals Division present the  
\$1000 CMA sponsored award to Elton  
Tse.*

Elton Tse is a fire assay technician working for ALS Laboratory in North Vancouver, BC since 2010. Prior to working with ALS, he attended BCIT in 2008 and earned my diploma of technology in the two year Chemical Sciences program. Since working at ALS, he has learned the various techniques of fire assaying from fluxing, fusion, cupellation, etc and assaying various types of ore samples. he is member of the QC and safety focus group in my workplace being actively involved with QC and safety related activities. Elton was also recently promoted and tasked with handling concentrate type samples in the newly Fire Assay Concentrate group department. He is currently enrolled in the part time assayer training program at BCIT and will prepare to take the final examination in the near future. Elton receives a

\$1000 Canadian Mineral Analysts sponsored scholarship.

## **Jessica Xu**

Jessica Xu graduated with a Master degree in Biotechnology from China. She enrolled and completed the assayer training program at British Columbia Institute of Technology, and passed the B.C. Certified Assayer theory examination on March 7<sup>th</sup>, 2015. Jessica is going to take the practical examination in 2-16. She is currently employed in Kemetco Research lab as an instrumental analyst, responsible for ICP-OES and AAS analysis for various matrix samples. Jessica receives a \$1000 Canadian Mineral Analysts sponsored scholarship.
